

# EDUCATION MANAGEMENT AUTOMATION SOFTWARE (EMAS)

**SHLR TECHNOSOFT PVT. LTD.**

BUILD FUTURE TECHNOLOGY

# FEATURE OF EMAS

## Student Record Management

The student Record management module will comprise student information like, personal details, family details, contact, medical, scholarship, Etc.

## Academic Records Management

The academic Records management module stores all the present and past academic records of all the students.

## Attendance Management

The Attendance management module keeps a track on the attendance of all the students and staff, which can be integrated using SMS System and Mail system.

## Time Table Management

The time table management module allows the HOD/Principal to add allocate the subject/Classrooms/Sections etc to the staff and same can be viewed by the respective student and staff. Even extra classes can be conducted and noticed to the respective student and staff.

## Online Communicator

Online communicator is like a googletalks window and which will allow the student/staff to communicate online or offline and keep track the conversation.

## Meeting Scheduler

Meeting schedule allows the principal /HOD to launch the meeting and the same will be noticed to the attendees whenever they login to software

## Fees Management

The fee module is the automated fee calculation module, the modules automatically calculates the pending fees, last fee payment details, dedications and concessions if any applicable to the selected student.

## Store Management

The Store management will keep a record of all the purchases and sold items in the school premises.

## Teacher profile Management

This module keeps all information of all teachers in the school/college.

## Payroll Management

The payroll management module will keep a record of the payment to be made to the staff, depending on the attendance, which can be integrated using SMS and Email System.

## Health Management(Medical)

This module keeps a track on the medical aspects of all the students and the staff.

## Hostel Management

This module keeps a track on students in the hostel, this module can be integrated using SMS and Email System.

## Library Management

The Library Management module is loaded with detailed options for entering the information about the books, issues and return are also managed without any user interventions. All the operator needs is to input the details of the book or the name of the student to whom book was issued. The system also keeps a track on the books which are returned late.

## Login for Parents

This module, parents can login to access their child's record, such as attendance, marks, etc.

## SMS Module

This module helps the parents to track by receiving SMS alerts for - Student Safety: Whether the student has arrived and left safely - Attendance: Whether the student has arrived and left on time/late/Early

## Email Broadcasting.

This module is used to send information or greetings to all parents through email.
